## NGA360A - Single Drum Lifter

Features	Specifications
Capacity	360kg
Drum Capacity	205 Litres
Fork Opening	560mm
Overall Size	880 x 710 x 1000mm
Weight	60kg

### **NG10 - Single Drum Lifting Clamp**

Simple mechanical forklift attachment for safely lifting 205 litre steel drums.  
Automatic operation for picking-up and releasing 205 litre steel drums.

### **NF10 Tilting Drum Stand - 250kg Capacity**

Tilting drum stands are virtually self-loading as drums can be loaded and transported by one man, without him touching the drum. They expedite the easy handling of large and small drums.

Castors with nylon wheels provide smooth movement and easy positioning of stands. When stand is in the horizontal position, handles can be retracted. Plastic hand grips resist slipping when drums are being loaded or transported.

### **L30 Drum Rack - 250kg Capacity**

This sturdily built rack has been designed to facilitate convenient, safe and efficient storage of drums and barrels for decanting.

Taking the backbreaking work out of drum handling, they are indispensable in garages, warehouses and factories.

A standard 75mm nylon wheel is used for ease of replacement.

## **TSD44 - Drum Dolly**

To suit 205 Litre/44 Gallon Drum.

Smooth Rolling and Strong, Durable Construction.

100mm Diameter Heavy Duty Castors.

Attach drum to unit.

Raise drum using foot pump.

Tip using crank operated gearbox

## NBF35 - Tilting Barrel

Handles steel drums without complicated adjustments or exchanging attachments.

Drums are raised & transported simply by engaging the screw operated rim clamp.

Hydraulic foot operated pump raises drum.

Fully enclosed chain drive & crank operated worm gearbox to assist tipping drums.

180 Degree Rotation.

Suits Steel Drums up to 200 Litres.

Features	Specifications
Capacity	350kg
Lift Height	1425mm
Dimesions	1190 x 890 x 2020mm
Weight	155kg
