

# PACIFIC PORTA LIFT TROLLEY

The Pacific Porta Lift Trolley is a cost effective portable lifting aid which enables one person to safely lift and manoeuvre up to 100kg, from ground level up to 1000mm high. This lifting device is perfectly suited for loading and unloading work vans, trucks, shelves, benches or other related applications. An additional benefit of the Porta Lift Trolley is that its service stand easily converts into a portable workstation.

## Features

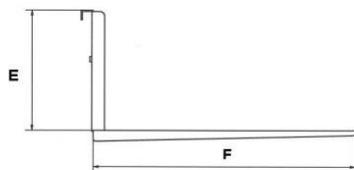

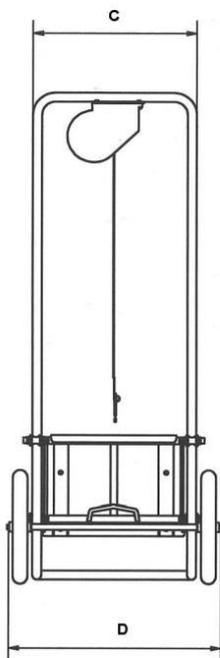

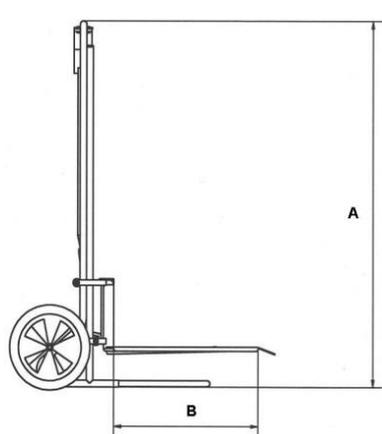

- The reverse braking winch enables the load to stop at any position without having to lock or unlock pins or ratchets.
- The unique noiseless reverse braking winch allows for the weight to be varied over the centre of gravity which enables the elimination of back stress to the user and creates easy handling on stairs.
- The removable platform and service stand allows for easy and compact storage in the back of utes, trucks, 4WD's and vans.
